U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
on SEPTEMBER 11, 1977
 - Export Shipments in
Current Marketing Year
 - Daily Sales Reported
SEPTEMBER 12 - 18, 1977
- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of September 22, 1977 (based on reports from exporters for the week ending September 11 unless otherwise noted).

Wheat: Sales activity improved moderately. Principal buyers included The Netherlands, Morocco, Chile, Japan, Portugal, and unspecified destinations. Algeria and The Netherlands were the major destinations in switches from unknown. Under the daily reporting system, Nigeria bought 101,605 metric tons (MT) for 1977/78 and the Soviet Union purchased 138,889 MT for the current marketing year (MY) and 111,111 MT for MY 1978/79. Exports of 678,100 MT were fairly healthy.

Corn: Portugal, under PL-480, was the only significant buyer for the current MY. Destination changes and other contract adjustments more than offset new sales to unknown destinations. EC countries were named as the destination on most of the sales previously reported as unknown. Switzerland elected to switch 98,000 MT to MY 1977/78. Other notable activity for 1977/78 included purchases by Japan, Peru, El Salvador, and several European countries. Reported daily sales totalled a net of 700,000 MT to unknown and 350,000 MT to the Soviet Union all scheduled for MY 1977/78. Part of the sale to the USSR reflected changes in destination -- 100,000 MT from Japan and 150,000 MT from unknown. Exports (694,300 MT) continued moderately heavy.

Barley: The export market was quiet as the only significant new sales were to unknown destinations. Sales to Korea continued to swell as 15,900 MT were shifted from unknown destinations. Exports for own account of 7,000 MT were reported to Canada.

Grain Sorghum: Buyer interest in U.S. supplies continued good with significant new sales reported for both 1976/77 and 1977/78. Sales to Japan for 1976/77 rose as the U.S. was declared the source on optional origin sales and additional purchases were reported. Portugal also purchased an additional 20,000 MT. Sales for 1977/78 increased with business reported with Japan and unknown destinations. Export activity continued moderately heavy.

Rice: Commercial interest continued modest with only one country, the Ivory Coast active in the marketplace. After two relatively heavy weeks, the export pace slowed.

Soybeans: Sales activity (403,100 MT) strengthened with large sales to the EC, Japan, Israel, and unknown destinations. Optional origin sales increased with sales of 50,000 MT to Mexico. Total sales are 34.6 percent of the USDA 1977/78 MY projection. Exports (70,500 MT) went principally to the Netherlands and Mexico.

Soybean Cake and Meal: Net new sales (34,600 MT) were substantially larger than the previous week with Mexico and Iran the largest purchasers. Exports totalled 35,200 MT with the EC and Canada the major destinations.

Soybean Oil: A sale of 6,000 MT to Bangladesh under Title I (PL-480) was the most significant activity as total sales increased by 9,300 MT. Optional origin sales were reduced by 5,000 MT as exporters reported that sales to India would be from foreign sources. Exports continued small.

Cotton: Sales activity was the slowest this MY. 1977/78 sales increased 43,400 RB with Korea and Japan the principal buyers. MY 1978/79 sales to Korea, Malaysia (an initial sale) and Taiwan totalled 5,000 RB. Exports increased somewhat from previous low levels as 50,400 RB were shipped, 75 percent going to Asia.

Oats: Showed no significant activity.

Data shown above may not add due to rounding. 1/ Includes increases resulting from new sales, upward contract adjustments, shifts in delivery period from one marketing year to another and changes from one commodity to another. 2/ Net foreign purchase activity. A purchase from a foreign seller is a transaction contracting to buy U.S. produced commodity from a firm outside the U.S. -- not involving a cancellation or buy-back of a reported sale. 3/ Includes decreases resulting from buy-backs of all or part of a contract balance by mutual consent, unilateral cancellation by one party which would result in a contract dispute, downward contract adjustments, shifts in delivery period from one marketing year to another, and changes from one commodity to another. 4/ Does not include exports for exporter's own account.
